

NEBRASKA ASSOCIATION
OF STUDENT COUNCILS

Maybe you're already a leader in your school. Maybe you'd like to be someday. And maybe you're somewhere in between. Wherever you fall, the NASC Summer Leadership Workshops can empower you to unlock your potential as a leader.

You won't learn from boring lectures or written tests. Instead, you'll engage with student leaders from across the state to hone your leadership skills with hands-on activities, large group sessions and dedicated, personal attention and instruction from our staff.

Oh yeah, you'll also have a lot of fun. It's not all work and no play around here. When it's time to let loose, you can sing, dance, play or just relax with your new friends.

All NASC Workshops are led by our Volunteer Staff. Our staff is comprised of over 200 students, teachers and other professionals from across the country who will work closely with you all week to impart valuable leadership skills.

Our Workshops are designed to bring out the dynamic leader in you. In five days, you'll learn just what you're capable of and connect with students like yourself to ensure that the learning doesn't end at Workshop.

junior high & middle school leadership workshop

Entering grades 6 - 8

If you're a middle school student looking to become involved as a leader in your school or as a future leader in your high school, JAM is for you. NASC's JAM Workshop will equip you with the skills you need to excel as a leader in your school and community.

Each day, you'll work with other students to learn and apply a variety of leadership skills through activities that are led by the NASC Volunteer Staff. You'll learn principles like goal setting, decision making, time management and meeting facilitation. We use what we call "three-dimensional leadership," which teaches you to excel as an individual, in one-on-one situations and as members and leaders of a group.

You'll also get to connect with students like you from all across the state. You'll share ideas with them, learn what they do in their schools and work together to develop your own leadership skills.

"Every day you learn more about how you can make a difference in your school and
KEEP THE FIRE BURNING. Attending workshop has given me more
confidence in being a leader."

Lindsey Madsen

summer leadership workshop

Entering grades 9 - 12

You may have never taken a Leadership class in high school—but when you venture out into the real world, you'll learn just how important leadership skills can be.

That's where SLW comes in. In five days, we'll empower you with the leadership skills you need to take charge and become an effective leader in your school and community.

You'll also have a lot of fun. It's not uncommon for our delegates to call Workshop "the best experience of their high school careers." Morning dance parties, big group activities, skits, impromptu foursquare games—it's all fair game.

We create a hands-on learning environment where you'll work with other high school leaders from across the state to discover how to make decisions, work in groups and tap into your potential.

It's a stepping stone to the real world, with a dedicated staff of leaders from across the country to show you what you'll need when you get there.

"...By far **the best thing** that I have ever been to in my life. I wasn't looking forward to going at first, but I was wrong. I made so many new friends from all across the state, learned so much about myself and others, and brought back endless ideas to use back at my school."

Jack Anderson
Kearney High School

advanced leadership workshop

Entering grade 12, previous attendee

Advance yourself. Advance your community. Advance your skills.

If you've attended Summer Leadership Workshop and you're ready to take the next step, ALW will challenge, inspire, equip and excite you to be the best leader you can be.

ALW is designed with risk-takers in mind. Our curriculum focuses on the concept of community; exploring what communities you're a part of, how you fit into them and how you can impact them. We'll cover political involvement, issues of diversity, controversial topics and more.

Of course, this is an NASC event. So you can expect an exciting week with fun, fresh traditions, new and old friends and lasting memories.

We developed ALW for advanced leaders who want to expand on the skills they have and gain new insights into leadership. And you'll do just that, with a group of accomplished student leaders from across the state by your side.

"NASC was an **incredible experience**. Being there was just like taking a step out of reality for a week and into a place where everyone liked you for you. I would not have changed it for anything in the world."

Abby Peitzmeier
Westside High School
